Memo to : University Community

From : (Sgd) Rodolfo P. Ang
Vice President

Subject : Guidelines on the Use of Grass Fields of our Loyola Heights Campus

---

We would like to provide the community with a better understanding of the University policy on our use of various grass fields on our Loyola Heights campus.

Statement of Policy

The grass fields on our campus are vital habitats that support biodiversity and provide essential ecological services such as carbon sequestration, soil health improvement, and natural rainwater management. Beyond their environmental value, these fields serve as spaces for community engagement, emergency evacuation, and recreation.

Guided by Ignatian ideals, the University envisions a campus conducive to holistic human development. Our fields are intended to foster human encounter while balancing personal flourishing with an active Care for Creation. These guidelines are established to ensure the proper use, safety, maintenance, and preservation of the following areas:

- Bellarmine Field
- Cervini Field
- International Residence Halls Field
- Cervini Field
- Senior High School Field
- SEC Field

Athletic facilities, such as the Junior High School football field, the Moro Lorenzo Field, the Baseball Field, and Ocampo Field are explicitly excluded from these guidelines.

1. Welcomed Activities

The following activities are generally permitted on the above-mentioned grass fields from 5:00 AM to 12:00 Midnight, provided that there are no ongoing (and previously approved) organized activities, event set-ups/preparations, or maintenance activities:

XH207 2/F Xavier Hall, Ateneo de Manila University
Katipunan Avenue, Loyola Heights, 1108 Quezon City, Philippines
+63 2 8426 6001 ext 4200, +63 2 8426-6083 ● vp-admin@ateneo.edu

- Small-group gatherings, such as meetings and prayer activities
- Informal small-group socials, such as light picnics, nature or bird-watching, hanging-out
- Leisure and exercise activities such as resting, reading, strolling, breathing exercises, yoga, and simple body exercises
- Minor sports activities such as badminton, tai chi, frisbee, kite flying, and similar low-impact exercises

Many members of our community walk across these fields instead of using our paved sidewalks in order to shorten the distance (and their travel time) between destinations. We welcome and appreciate this practice.

2. Notes on What Are Not Allowed

- Large group gatherings or activities and organized sports events, such as rallies, lectures, film showings, concerts, food sales, and sportsfests are allowed only with prior permission*. (Large group will be defined as 20 or more persons.)
- High-impact or organized sports activities that may damage the grass are not allowed on these fields, including football and baseball (we have facilities specifically designed for these sports).
- Use of the fields during inclement weather is restricted to prevent damage to the grass and ensure user safety.

Please understand that the nearest security personnel on duty may call the attention of users or restrict the use of the area in case of non-compliance with these guidelines.

** Contact Central Facilities Management Office - Reservations, Events, Logistics & Job Requests Section at local 4263 or 4271 or email reservations.cfmo@ateneo.edu.*

3. Care and Upkeep

Since we have already mastered the practice of CLAYGO (Clean As You Go) in many of our cafeterias and many of our other common spaces, we would like to see this practice extended to the grass fields, especially because there are no dedicated custodians assigned to clean these areas. This practice demonstrates respect for the shared campus environment and consideration for other users and scheduled activities. Users are reminded to properly sort, clear, and dispose of all trash in the designated nearby trash bins.

We hope that these guidelines will help us make good use of our beautiful campus and appreciate it better.
